Are **YOU** bushfire ready? **PREPARE • ACT • SURVIVE**

Most of Tasmania is bushfire-prone. Every summer you need to be bushfire-ready.

This plan sets out the things you should do to survive a bushfire. **Get the latest version and use it to update your personal Bushfire Survival Plan.**

Tasmanian
Government

PREPARE | before the fire

- 1) **Prepare your home for bushfire.**
 - Use the Tasmania Fire Service *Bushfire Prepare to Survive* booklet or DVD.
 - Even if you plan to leave early, preparing your home gives you another shelter option, and firefighters a better chance to save it.
- 2) **Decide what you will do and write down your plan.**
 - Will you leave early, or will you stay and defend your home?
 - Decide now, and fill out your *Bushfire Survival Plan*.
- 3) **If you can, talk with your neighbours.**
 - What are their plans? Are they aware of your plans?
- 4) **Review your insurance policy.**
 - Are your home and contents covered for bushfire?

ACT | when fires are likely, or nearby

- 1) **Keep informed.**
 - Check the weather forecast and Fire Danger Rating daily.
 - Listen to ABC Local Radio, monitor the Tasmania Fire Service website www.fire.tas.gov.au and watch for smoke and fires.
 - If bushfires are in your area, don't wait for an official warning.
- 2) **Put your *Bushfire Survival Plan* into action.**
 - **The safest option for all bushfires is to leave early, before a bushfire threatens you and your home.**
 - Consider leaving immediately if 'Severe', 'Extreme' or 'Catastrophic' Fire Danger Ratings are forecast for the following day.
 - Leaving the day before because of a bad fire danger forecast isn't always practical. So, if waiting until a bushfire breaks out in your district, leave early before roads are cut by fire, fallen trees or power-lines.
 - Be prepared to stay away for several days. Head away from any fires; towards a town centre is often best.
 - **A safe option for some bushfires.**
For less intense bushfires, you may stay & defend your home if:
 - a) You have prepared it for bushfires, with fire-fighting equipment and plenty of water.
 - b) You are fit and emotionally prepared (it is best to evacuate children and other dependents early).
 - **An unsafe option is to 'wait and see', then flee at the last minute.**
 - If you don't have a plan, leave immediately.
 - If a bushfire catches you by surprise and it's unsafe to stay at home but too late to leave the area, go to a nearby safer place and wait for the fire front to pass though.

SURVIVE | after the fire

- 1) Make sure everyone's safe, check on your neighbours if you can.
- 2) Tune in to the Information Sources (listed on the map overleaf).
- 3) If at home, put out any embers and spot-fires threatening your home.
- 4) If your home is destroyed, contact your local council for assistance.

**In an emergency dial triple zero 000
or if a TTY user call 106**

NEARBY SAFER PLACES

A nearby safer place is somewhere close by you should be able to reach quickly and safely, and that gives shelter from radiant heat.

**Using nearby safer places is not without risk.
They are a last resort, not your only option.**

Nearby safer places may include town centres; ground level water e.g. rivers, in-ground pools, dams; large open areas e.g. beaches, ploughed or green fields, golf courses, recreation grounds and community parks with very short grass; and approved bushfire bunkers.

Tasmania Fire Service has identified some nearby safer places in this area (see below).

- List other nearby safer places, close to where you live, in your personal *Bushfire Survival Plan*.
- Prepare your home and identify nearby safer places. Otherwise, leave early.
- Travelling through fire impacted areas is unsafe and should be avoided, even in a car.

Nearby Safer Places:

• **Pirates Bay Main Beach
(Behind 433 Pirates Bay Drive)**
Pirates Bay Drive, Map Grid E6

• **Tuna Club Car Park**
Blowhole Road, Map Grid G5

**Add nearby safer places to your
Bushfire Survival Plan.**
